LB 855, 726

keep our birthdays and our holidays like they are and let the federal government go down the road and if it wants to celebrate Sunday as the fourth of July and Christmas, it's alright with me but we in Nebraska know what we want. We want Lincoln's birthday when it is, Washington's when it is, Memorial Day when it should be and certainly we're not going to change Christmas and Easter.

SENATOR RUMERY: Senator Keyes, I don't want your advice.

SENATOR BARNETT: Senator Rumery, do you have anything more to add on closing or did he do it for you alright? Okay, the motion is to advance LB 855 to E & R Initial. All those in favor will vote aye. All opposed nay. Senator Barnett voting aye.

CLERK: Senator Barnett voting aye.

SENATOR BARNETT: Have you all voted? Have you all voted? Clerk, record.

CLERK: 25 ayes, 3 nays on the motion to advance, Mr. President.

SENATOR BARNETT: LB 855 is advanced. Go to LB 726. Senator Chambers.

CLERK: Mr. President, I have a motion to lay over 726 by Senator Goodrich. He wants to bracket until 3-17-78.

SENATOR BARNETT: Senator Goodrich.

Now if that's what you want, then 726 is the answer to it. It certainly does it. I'm suggesting, in fact the Lincoln Police group has an amendment that I don't think quite does the job, but another amendment is being drafted that will take care of it and I would like to lay the bill over for a week. We could then print the amendments in the Journal and you could all at least see what we're doing and then make your decisions a week from today.

SENATOR BARNETT: Senator Chambers.

SENATOR CHAMBERS: Mr. Chairman, and members of the Legislature, I've talked to Senator Barnett who has been contacted by somebody from the Lincoln Police Division about an amendment which they have not drafted. He's going to work with them and see what kind of amendment they bring in and the primary concern is not that police officers will not be able to do part time work. This bill doesn't deal with that at all. They don't want to have to have any liability insurance so that if while
